

# Fast Track to Learning Ensemble

Find the learning path that best suits your needs

## FOR INTEGRATORS

If you are  
**NEW**  
to Ensemble:

### READ:

- “Make your applications connectable” on our [Ensemble Product page](#)
- “Ensemble Technology Guide” on our [Ensemble Features and Benefits page](#)
- “Introducing Ensemble” in the Ensemble documentation and on our [Ensemble Product Specifications page](#)
- “Getting Started with Ensemble” in the Ensemble documentation and on our [Ensemble Product Specifications page](#)

### ATTEND:

- If you are new to InterSystems Technology...  
Take the 1-day “**InterSystems Core Technology**” Classroom Training followed by the 4-day “**Building Productions with Ensemble**” Classroom Training.
- If you are familiar with InterSystems Technology...  
Take the 4-day “**Building Productions with Ensemble**” Classroom Training.
- Visit our [Ensemble Education and Training page](#) to learn more about our Ensemble training options.

### THEN:

- Continue your learning by following the “Acquainted with Ensemble” path.

If you are  
**ACQUAINTED**  
with  
Ensemble:

### READ:

- “Developing Ensemble Productions”
- “Managing Ensemble Productions”
- “Using File Adapters with Ensemble”
- “Using TCP Adapters with Ensemble”
- See the Ensemble documentation and our [Ensemble Product Specifications page](#) for Ensemble documentation and articles.

### If you are interested in HL7

- “Ensemble HL7 v2 Development Guide”
- “Ensemble HL7 v2 User Interface Guide”
- “Ensemble HL7 v2 Technical Reference”
- “Ensemble HL7 v3 Development Guide”
- See the Ensemble documentation and our [Ensemble Product Specifications page](#) for Ensemble documentation and articles.

### ATTEND:

- 4-day “**Building Productions with Ensemble**” Classroom Training
- 3-Day “**HL7 with Ensemble**” Classroom Training
- Visit our [Ensemble Education and Training page](#) to learn more about our Ensemble Training options.

### THEN:

- Continue your learning by following the “Experienced with Ensemble” path.

If you are  
**EXPERIENCED**  
with  
Ensemble:

### READ:

- “Using Dashboards with Ensemble”
- “Using Workflow with Ensemble”
- “Using Business Rules with Ensemble”
- “Using the Java Gateway”
- See the Ensemble documentation and our [Ensemble Product Specifications page](#) for Ensemble documentation and articles.

### THEN:

- Maintain and deepen your knowledge of Ensemble through our Ensemble e-Learning Program.  
Visit our [Ensemble eLearning page](#) to learn more.
- Become a Certified Professional Integrator through our online Ensemble Certified Professionals Program.  
Visit our [Ensemble Professional Integrator Certification page](#) to learn more.

If you are an Expert with Caché, then continue building your skills and knowledge with Ensemble training!
