Dokumentation

The screenshot shows the InterSystems Documentation website. The browser address bar displays 'docs.intersystems.com'. The website has a navigation bar with links: Learning, Documentation (active), Community, Open Exchange, Global Masters, Certification, and Partner Directory. A search bar is located below the navigation bar. The main content area is titled 'InterSystems Documentation' with the subtitle 'Everything you need to know about our products and more.' Below this, there are several product documentation cards, each with a title, version, and a 'Previous releases' link. The cards are: InterSystems IRIS Data Platform (Version 2024.2), InterSystems IRIS for Health™ (Version 2024.2), InterSystems Data Fabric Studio (Version 2.8), InterSystems TotalView For Asset Management (Version 2.8), InterSystems Supply Chain Orchestrator™ (Version 2024.1), HealthShare Health Connect (Version 2024.2), HealthShare Solutions (Version 2024.1), Components and Tools, Cloud Services, CMS-0057 FHIR APIs, and Caché and Ensemble (Version 2018.1.9). A 'Feedback' button is visible on the right side of the page.

Open Exchange

The screenshot shows the Open Exchange website interface. At the top, there is a navigation bar with links: Learning, Documentation, Community, Global Masters, Certification, Open Exchange (active), Partner Directory, Startup Hub, and Ideas Portal. Below the navigation bar is the InterSystems logo and a search bar. The main heading is "Welcome to Open Exchange". Below this, there is a paragraph of text: "At InterSystems, we deeply appreciate the rapid innovation enabled by open-source development. Our team acknowledges the significant impact of the community's dedication, which has been a driving force behind the evolution of software and data technology." Below the text are several category links: Analytics, Data Set, Developer Environment, Frameworks, Integration, Solutions, Technology Example, and Template. A prominent green button labeled "Submit application" is located below these links. On the right side, there is a section titled "Top contributors" with a dropdown menu set to "1 month". It lists five contributors: Robert Cemper, Henrique Dias, Alex Alcivar, Dmitry Maslennikov, and Muhammad Waseem. Below this, there is a section titled "Featured applications" which displays four application cards. Each card shows the application's category, logo, name, description, and a star rating with the number of reviews.

Category	Application Name	Description	Rating
Analytics	iris-vector-search	Quick and easy ways to use iris vector search with Python.	4.0 (2)
Frameworks	sqlalchemy-iris	An InterSystems IRIS dialect for SQLAlchemy	5.0 (5)
Developer Environment	OwnObjectScriptExtension	A Visual Studio code extension that supplies tools for InterSystems ObjectScript.	5.0 (1)
Developer Environment	InterSystems Package Manager	InterSystems Package Manager	4.8 (22)

GitHub Beispielcode

The screenshot shows the GitHub profile page for InterSystems Corporation. The header includes the company name, location (Cambridge, MA), website (http://intersystems.com), and 72 followers. Below the header, there are tabs for Overview, Repositories (104), Projects (2), Packages, and People (3). The main content area displays a grid of popular repositories:

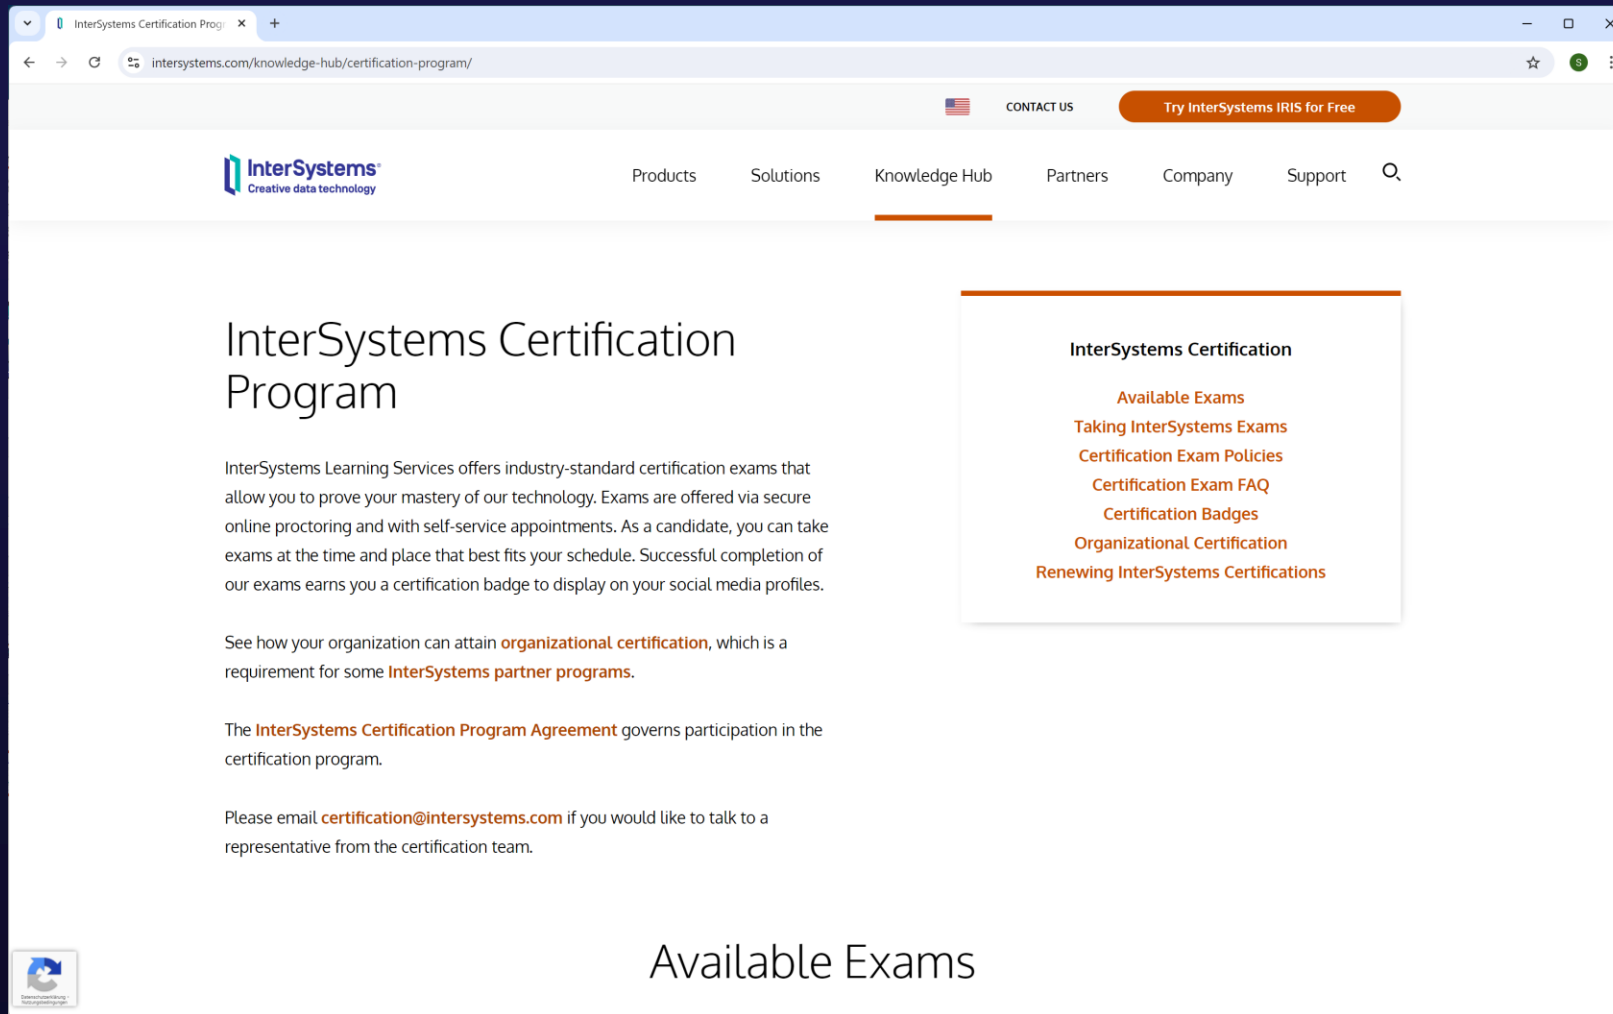

- iknow**: Community development repository for iKnow. C++ (50 stars, 18 forks).
- language-server**: Repository for the VS Code Language Server. TypeScript (16 stars, 6 forks).
- apps-rest**: Framework for rapid development of secure, sustainable REST APIs. ObjectScript (13 stars, 20 forks).
- ipm**: InterSystems ObjectScript Package Manager. ObjectScript (28 stars, 19 forks).
- Samples-ObjectScript**: ObjectScript samples for use with the ObjectScript tutorial. Meant for use with InterSystems IRIS Data Platform. ObjectScript (13 stars, 12 forks).
- Samples-BI**: Provides sample data for use with InterSystems IRIS Business Intelligence, as well as fully developed sample BI models and dashboards. ObjectScript (12 stars, 20 forks).

On the right side, there are sections for "People" (three avatars), "Top languages" (ObjectScript, JavaScript, Apex, Java, Shell), and "Most used topics" (intersystems-iris, intersystems-samples, intersystems, cacheobjectscript-udl, objectscript).

At the bottom, there is a "Repositories" section with a search bar and filters for Type, Language, and Sort.

InterSystems Certification

A screenshot of a web browser displaying the InterSystems Certification Program page. The browser's address bar shows the URL 'intersystems.com/knowledge-hub/certification-program/'. The page features the InterSystems logo and a navigation menu with links to Products, Solutions, Knowledge Hub, Partners, Company, and Support. A prominent orange button labeled 'Try InterSystems IRIS for Free' is visible. The main content area is titled 'InterSystems Certification Program' and includes a paragraph about the certification process, a section on organizational certification, and contact information. A sidebar on the right lists various certification-related links.

InterSystems Certification Program

InterSystems Learning Services offers industry-standard certification exams that allow you to prove your mastery of our technology. Exams are offered via secure online proctoring and with self-service appointments. As a candidate, you can take exams at the time and place that best fits your schedule. Successful completion of our exams earns you a certification badge to display on your social media profiles.

See how your organization can attain **organizational certification**, which is a requirement for some **InterSystems partner programs**.

The **InterSystems Certification Program Agreement** governs participation in the certification program.

Please email certification@intersystems.com if you would like to talk to a representative from the certification team.

Abonnieren Sie den monatlichen [Newsletter von InterSystems Learning Services](#), um aktuelle Informationen über neue Initiativen, kostenlose Online-Lernressourcen, Live-Schulungen, Zertifizierungs-Updates und mehr zu erhalten.

Übersicht Lernressourcen

Klassenzimmer

- Geführte Kurse, virtuell oder in Präsenz.
- Nur mit Mitgliedern Ihrer Organisation oder gemeinsam mit anderen InterSystems Kunden.
- Anleitung und betreute Übungsaufgaben.

Online lernen

- Kostenloser Zugang jederzeit und überall.
- Videos.
- Übungen und Kurse.
- Fortschritt verfolgen über Lernpfade oder jobspezifische Lernprogramme.

Developer Community

- Fragen stellen.
- Artikel lesen.
- Mit anderen InterSystems-Nutzern interagieren.

Dokumentation

- Referenzmaterial und Anleitungen lesen.
- Troubleshoot.
- Identifizieren, wie jede API genutzt wird.

Zertifizierung

- Digitales Badge zur Zertifikation erhalten.
- Organisations-Zertifizierung ab 4 oder mehr Mitarbeitern erhalten.
- Qualifizierung für aufbauende Zertifizierungsmöglichkeiten.

Vielen Dank
