

# Supporting Better Care Delivery with Faster, Lower Cost, and More Reliable Data Flow

## How a Top 3 IDN went from 15 integration engines to 1

InterSystems HealthShare Health Connect is an integration engine helping a top 3 IDN better serve its mission of delivering efficient, compassionate, personalized care.

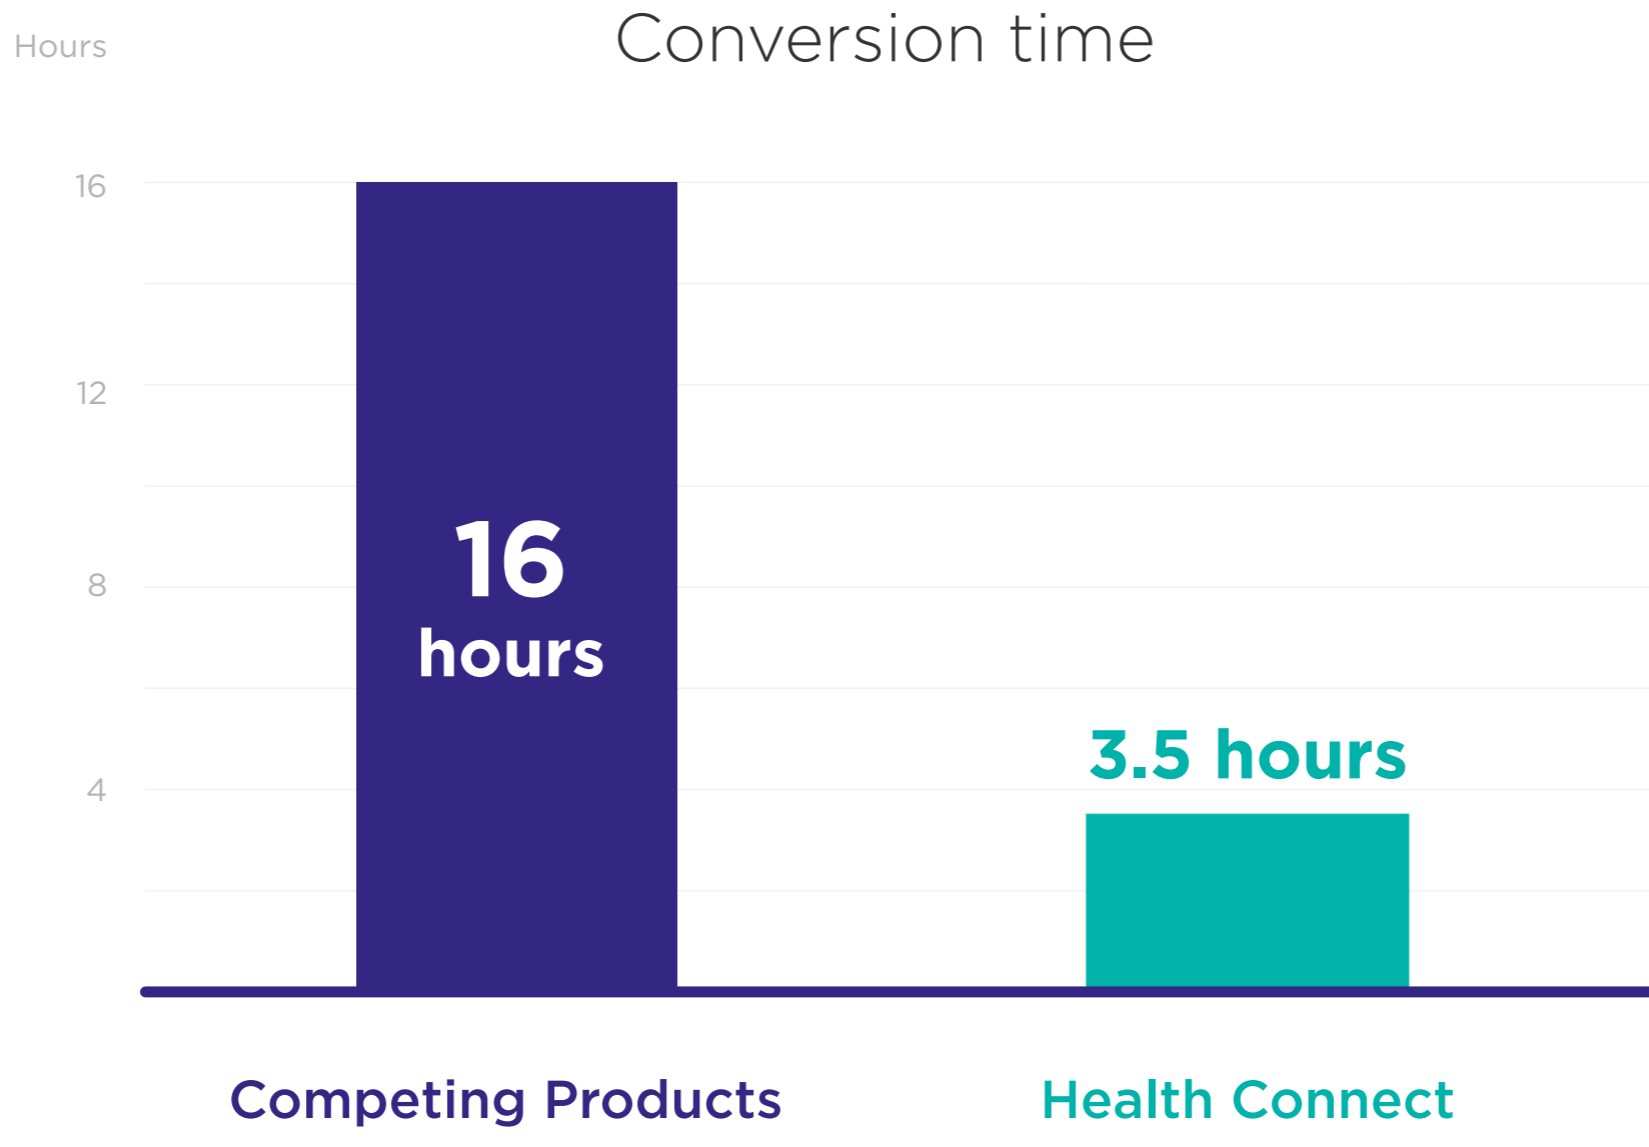

Here's how Health Connect helped one of the top 3 integrated delivery networks (IDNs) achieve smooth data migration and maximize value:

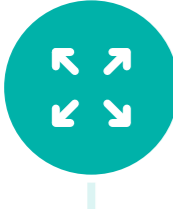

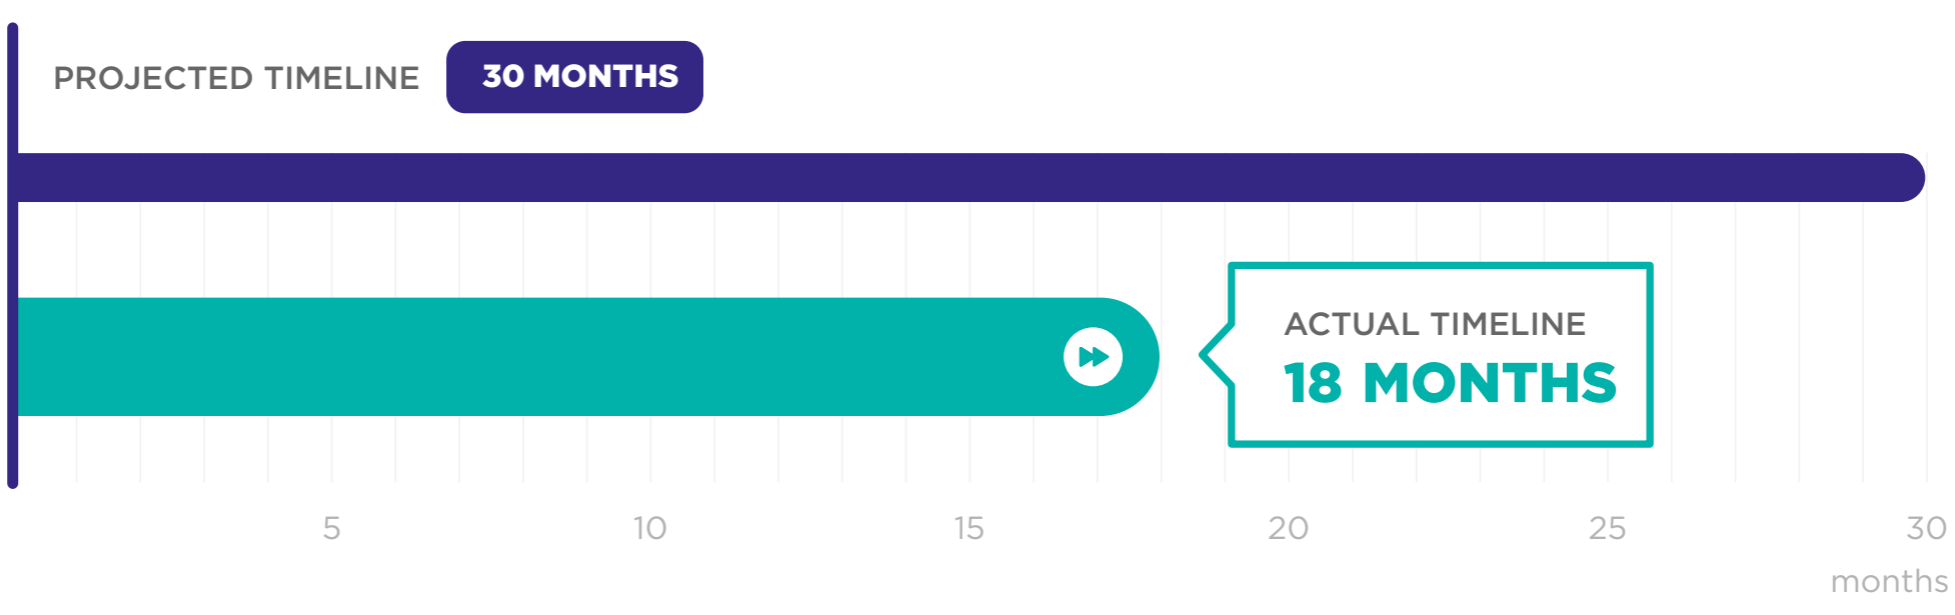

### Faster

**78%**

faster legacy interface conversion than competing products' benchmarks

Slashed project completion time by **40%**

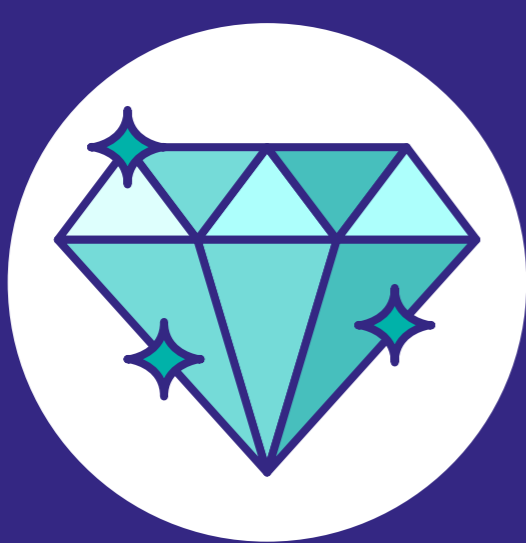

### More Scalable

**2,000+ interfaces** deployed in less than 2 years

### More Reliable

**0 hours** of unscheduled downtime in 2.5 years

### More Valuable

Saving **\$18+ million** in interface development costs alone

**\$3,000 in development cost savings** per interface **x** 6,000 interface conversions\*

\*And additional savings by terminating legacy software license
