Proven today. Ready for tomorrow.

InterSystems is the information engine that powers some of the world's most important applications. In healthcare, business, government, and other sectors where lives and livelihoods are at stake, InterSystems has been a strategic technology provider since 1978. InterSystems is a privately held company headquartered in Cambridge, Massachusetts (USA), with offices worldwide, and its software products are used daily by millions of people in more than 80 countries. For more information, please visit InterSystems.com.

InterSystems advanced software empowers providers, payers, governments, medical technology innovators, software developers, clinical laboratories, and life sciences companies to deliver what matters.
