

INTERSYSTEMS OVERVIEW

The Fast Path to Rural Health Transformation

THE NEED

Rural Communities Face Persistent Access and Outcome Gaps

1 in 5

People in the U.S.
Live in Rural Areas¹

Rural Areas

43%

Higher Mortality Rate

(Age-adjusted Natural-cause Mortality Rate Compared to Urban Areas²)

THE CHALLENGE

Fragmented Systems Make Rural Care Harder to Deliver

Workforces Shortages

Disconnected Data and Technology

Delayed Treatment

Worse Health Outcomes

THE SOLUTION

The Data Backbone for Rural Health Transformation

1B+

Healthcare Records Managed Globally by InterSystems Technology

Connected Care Across Rural Communities

Connect states, providers, payers and community partners

A Complete View of Each Person's Health

Support whole-person care with unified, actionable data

Insights That Drive Measurable Improvement

Track progress, report outcomes, and guide better decisions

Better Outcomes for Rural Communities

1. 'About Rural Health' U.S. Centers for disease Control and Prevention (CDC), May 2024.

2. 'The Nature of the Rural-Urban Mortality Gap' by Kelsey L. Thomas (Conley), Elizabeth A. Dobis and David McGranahan (USDA Economic Research Service), 2024.
